

SMD DATA LINE EMI FILTERS

Series CZ

OUTLINE

- ◆ These surface mount filters are specifically designed to virtually eliminate the problem of conducted EMI in data line applications.
- ◆ They provide both differential and common mode noise attenuation.
- ◆ These components contain tremendous electrode straight.
- ◆ Solder heat resistance products are specially designed for flow, reflow and wave soldering required for surface mounting applications.

FEATURE

- ◆ These components is compatible with auto insertion equipment and easy installed for PC board.
- ◆ With four lines for voice and data line.
- ◆ Compact and high performance.

APPLICATIONS

- ◆ Attenuating noise of analog and digital signals for telecommunication devices.
- ◆ Prevention of interference from amateur radios or CB Stations.High frequency welders, etc.

SHAPES & DIMENSIONS
